About Us.

Introduction

orklaforum.com is a leading Greece based wealth management provider, offering a range of flexible products and investment solutions through our newly improved online platform.

We strongly believe in the value of advice and only offer our products through qualified financial advisers.

Together with advisers, we help hundreds of thousands of customers like you look after their money and achieve their financial goals.

Our goal is to provide our investors with a reliable source of good income, while minimizing any possible risks and offering a high-quality service, allowing us to automate and simplify the relations between the investors and the trustees. We work towards increasing your profit margin by profitable investment. We look forward to you being part of our community.

With our easy-to-use online platform, you'll have more control over your financial position. You and your financial adviser can manage your investments online, react more quickly to market developments and alter your asset choice whenever you want.

orklaforum.com - We combine our decades of business ownership and expertise with strong business foundations to establish the systems and strategies for long-term growth.

We own businesses across the food, healthcare, housing, transport, insurance, data management, and blockchain industries. Specialized in streamlining our businesses for success, we position them for strategic long-term growth.

Purpose & Vision.

PURPOSE

- This means supporting our colleagues, customers and clients, and the communities and environment in which they operate, for the benefit of all our stakeholders. It means helping people and businesses unlock their potential and plan for the future with confidence, building relationships that stand the test of time. And it means that we continue to be there for the long-term, whatever the climate, making decisions that are right for today and for generations to come.
- And we recognise that to help the people and businesses of Britain thrive, we also have a responsibility to help address the social, economic and environmental challenges facing our business, employees and clients, now and into the future.

VISION

- we want every person to have the opportunity to succeed based on merit, regardless of race, color, religion, creed, ancestry, national origin, sex, age, disability, marital status, citizenship status, sexual orientation, gender identity expression, military or veteran status, or any other criterion. Why is this so important? To us, diverse and inclusive teams enriched with people of distinctive backgrounds make us better. They help us generate better ideas, reach more balanced decisions, engage our communities and help our clients achieve better outcomes.

Responsible Investing

principals guide our decision-making throughout the investment lifecycle. From the onset of the investment process, we pursue ideas inspired by environmental, social, and governance ('ESG') issues and participate in industries engaged with these themes. All companies in which we invest are first vetted by our professionals, who work closely with expert advisors, to identify and mitigate potential ESG conflicts. Our ESG due diligence program requires an assessment of ten key ESG areas which may impact the current or future performance of a company. One Equity Partners will forego any investment that fails to meet its ESG standards. Once invested, One Equity Partners reviews and monitors all its portfolio companies to ensure they adhere to its ESG policy, which is periodically reviewed to incorporate best practices as risks evolve. This process allows One Equity Partners to quickly detect and preempt or manage any difficulties that may arise during the investment period. As investments mature, One Equity Partners seeks to continually improve upon ESG reviews and recommendations, and, together with management, works to ensure that ESG issues are prioritized through to and beyond exit.
